

Project Design phase - I

Project Name	Estimate the crop yield using Data Analysis
Team ID	PNT2022TMID19656
Date	20-10-2022

Solution Architecture

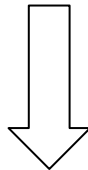

Datasets

- Download the datasets.
- once analysis them in excel.

IBM cognos

- Uploading the data into cognos.
- Analysis them.
- Cleaning the data and preprocessing them.
- Explore the data with various trends in it.

Data report

- Visualization.
- Export the data report.
- Present them in neat manner.
